HUMAN CADAVER DISSECTION
COURSES

FOR PLASTIC-, AESTHETIC- AND ORAL IMPLANT SURGERY

Aesthetic Surgery of The Face
Less Invasive Approaches with good results - keep it simple
Hands-on-Human-Cadaver-Course
Vienna, 13-14 of March 2010

Organisers: Norbert Fock, M.D., D.M.D.

Hannes Traxler, M.D., Ph.D

Patronage: R. Ewers, M.D., D.M.D., Ph.D

Chairman of University Hospital of Cranio-Maxillofacial
and Oral Surgery, Medical University of Vienna

Cooperation: GAEG.org, EACMFS.org, EAFPS.com

Partner: B.Braun, Silhouette Lift

Topics:

Hands-on

- Lifting with Threads,
- Upper and Lower Blepharoplasty,
- Lateral Canthopexy,
- Short Scar Facelift,
- Combined Techniques,
- Rhinoplasty,
- Dissection of Facial Danger Zones

Faculty:

Norbert Fock (Austria), Timothy Leontsinis (UK), Franco R. Perego (Italy), Peter Scheer (CA-USA)

Course Aim:

This seminar has been pioneered to meet the specific needs of facial surgeons not only to learn and perform standard techniques of Facial Cosmetic Surgery but also **update your knowledge** in the delicate anatomical structures of the face and neck. There will be always a focus on pitfalls and facial danger zones for each surgical procedure.

Course Description:

The participants will perform Cosmetic Facial Plastic Surgery Techniques as described above in Topics.

90% of the course is hands-on with 10% lectures about explanations of the techniques and live or video taped dissection (displayed on screen), **all step by step.**

A maximum of two participants will be assigned to each cadaver skull. For the cadavers are fresh and not embalmed a nearly "close to reality" simulation of the surgical procedures can be experienced.

Tutors are around to help you.

There is absolutely no need to be intimidated or concerned with your anatomical and surgical knowledge because we will guide you through the entire process.

In this well-supervised environment you will learn and perform standard aesthetic cosmetic plastic surgery procedures of the face and neck and gain a clear understanding of the relationship between the different anatomical structures in this area, with possible danger zones for each procedure.

Course Language: English

Course Fee: Euro 1.980,-

Location: Center of Anatomy and Cell Biology of the Medical University of Vienna, Währingerstrasse 13, 1090 Vienna

Details and booking only by: www.human-cadaver-courses.com
